

# UNIQUE BUSINESS OPPORTUNITY

Seeking Distributors & Licensees (*IP Sale optional*)

## BILLABONG HYDRAULIC RAMS

**1855 - Present day**

**Manufactured & distributed in Australia by Misal Technologies Pty. Ltd.**

To pump water from a spring or creek onto your property with minimal running cost, you should consider the Billabong Hydraulic Ram. The Billabong Hydraulic Ram has been supplied to Australian and International Markets for over 166 years. Our pumps are world-renown and field proven for their superior quality, high reliability and affordability by satisfied customers.

### Features:

- Environmentally-friendly. A truly unique, green product with zero pollution. Sustainable & durable.
- Requires no electricity, steam or fuel.
- Low carbon footprint.
- Minimal maintenance required.
- Cost-effective and self-lubricating.
- Able to lift water up to 61 metres / 200 feet.
- Higher head delivery (up to 160 metres) if you upgrade to an alternative model.
- Complete Billabong Ram units and spare parts available.
- One of the oldest Water Rams in the world. Renowned for their longevity (60 - 100+ years) and excellent operational reliability.
- Simple construction and operation - only 2 moving parts.
- No plastic parts used within their components.
- Extended warranty to 5-years on cast iron parts i.e. Base, Dome and Flanges (Threads excluded).
- All other parts are subject to a 2-year warranty.
